Natural Stone Fireplaces

With over 40 years of providing bespoke natural stone fire surrounds for discerning clients, CWO's service takes care of every detail from design advice, selection of stone to production and installation in your home.

From the cosy intimacy of the cottage inglenook to the opulent grandeur of a classical chimneypiece, natural stone cannot be surpassed.

CWO can provide fireplaces of timeless design carved from natural limestone stone, giving architectural interest to both modern and traditional interiors.

A hand carved natural stone fire surround, carved by our award-winning masons, makes a unique statement with a design to perfectly match your home.
